REDS CONTROL WHITE HOUSE IGNORANCE OUR GREAT THREAT

Baptist Minister Says Proof that the Majority of People Don't Want to Think is Proven by Re-election of Roosevelt, "World's Greatest Liar."

The Editors, THINK WEEKLY:

This acknowledges with thanks several copies of your publication which I have read and which furnishes the impulse to write the following:

THINK WEEKLY'S fight against Communism is magnificent; the Western Voice (Harvey Springer's publication) is doing a good job; needless to mention the Chicago Tribune and others whose mighty voices rock the nation. But have you or any of the others ever stopped for a moment to consider your fight amounts to no more than a boy waving his shirt tail at a cyclone? Why? Simply because of the fact the intelligence quotient of the people of the United States is equal to that of a child of thirteen years. How do you or the others expect children to heed your warnings? When you tell them they are thinking, they will worship you; but when you **cause** them to think, they will condemn you. It is not Communism, nor National Socialism, nor New Dealism, nor Fascism threatening the citizens of America nor any of the other peoples of the earth today — it is **DAMNED IGNORANCE**.

The American people (children) let the world's most famous liar, Roosevelt and his advisers, drag their sons from their homes to be slaughtered on foreign soil and elected him again, again, and again. Today his dupes and tools are reducing the American children from morons to imbeciles.

They have brought disgrace and

BYRNES AND MARSHALL "SECRETARIES OF STATE" BUT FRANKFURTER IS BOSS

We are thoroughly convinced that James Byrnes was not Secretary of State, and we do not believe General Marshall will be Secretary of State. These positions are "in name only".

We are convinced that Felix Frankfurter, although on the Supreme Court, has been and is Secretary of State.

We are also convinced that Dean Acheson, who makes daily trips to Frankfurter for instructions, and Benjamin V. Cohen have been running the State Department and will continue to run it for Felix Frankfurter. General Marshall will be only the front, just as Byrnes has been.

It is well to remember, in this connection, that Felix Frankfurter and Harold Laski, the London Communist and brains of the labor government, were pals at Harvard and have been working closely since.

All during the war, Felix Frankfurter not only named most of the heads of important departments, but was a member of the powerful group who gave F.D.R. his instructions.

To those who think this is a strange story and find the facts hard to believe, we would suggest that you paste it in your hat for one year; if we still have our freedom at that time, re-read this article and see how plausible it sounds then.

If you receive extra papers pass them along to your friends and ask them to subscribe.

WHEN IS TRUMAN GOING TO RECOGNIZE COMMUNISM AS NO. 1 ENEMY? — APPALLING INFILTRATION OF ENEMY AGENTS INTO ARMED FORCES EXPOSED

In past issues we have brought out the activity of Communists in unions, in professional groups, in government branches. We have also brought out and we state again now that important appointments made from the White House have been **entirely** dictated by International Reds.

When Harry Truman took over the White House, there was a flow of publicity leading people to believe that the Reds would move out at once. We believe that the President himself really meant to pry them loose from control of the Administration — but they are still there. And, since taking over the presidency, Mr. Truman has made statements against several groups, including the Ku Klux Klan, which the Reds are trying to keep alive as a straw man to detract from the Communist activities in the United States.

It is all well and good for Mr. Truman to oppose the Ku Klux, which is far from being an admirable organization, but at no time in his professional career has President Truman had the courage to condemn the No. 1 enemy of our country, Communism.

When is he going to do it?

Who or what has sufficient power to be able to intimidate the President, the highest official in this land? Who prevented James Byrnes, as Secretary of State, from firing the thousands of Communists in the State De-

partment? Some day we are going to tell you.

In the meantime, we will turn to Communism in another group, the Army. For several weeks we have been waiting for some developments that would allow us to give our readers an idea of how far Communism has progressed in the Army. We are not yet free to give you the whole story, but, as so many readers are interested in this subject, we give a few of the facts which should provide food for thought.

Since Communists are active in our Army, we intend to smoke out not only the Communists, but also the non-Communist higher-ups who remain quiet because of strong pressure on them.

We have been reliably informed that top men who held the position of Chief of Staff of the Army previous to General Marshall were removed by F.D.R. **because they insisted on going after the Reds.** Hence we see there has been a power preventing Reds from being eliminated from the Army, the same power that protected the several thousand in the State Department.

From a War Department source comes the following information: The Army at the present time has no satisfactory means of checking on Communist infiltration. Communists during the war took advantage of the confused state of the country and of the wartime expansion to place themselves in positions of power and influence in the government. They placed agents in the War Department and other government agencies. Army intelligence officers fighting these Communists were stopped dead in their investigations by an order of December 30, 1943, not to take any further action to restrict Communists from "sensitive" duties. The counter-intelligence corps was eliminated as a central agency. When this corps was destroyed, all records of subversives were taken from it and dumped into the general records sections, where they are submerged in a maze of other records.

From Representative Hatton W. Sumners of Dallas comes a report on a textbook which was used during this war in the armed forces of the United States — "Economics: Principles and Problems", selected and prepared by the editorial staff of the United States Armed Forces Institute.

Mr. Sumners charges "The armed forces were using taxpayers' money to teach Communism. The authors of the textbook, which was in use among

military personnel, present a program which, by their written statements, would result in the government taking over the privately owned real property of the American people."

* * *

The following material is taken from an editorial of the New York Journal-American:

"At the height of Red Fascist infiltration in the New Deal, a document called 'Economics: Principles and Problems,' written by Paul F. Gemmill and Ralph H. Blodgett, was issued as Educational Manual EM763 for use in the armed forces of the nation.

"It also became a standard economics textbook in NEARLY TWO HUNDRED AMERICAN COLLEGES AND UNIVERSITIES.

"This was a frankly Communist publication, openly disparaging the democratic American system of Government and productive enterprise, and lavishly eulogizing the totalitarian philosophies adhered to by Soviet Russia.

"It has now been 'eliminated' from the War Department's educational courses, in belated and embarrassed response to public protest.

"It still REMAINS in the curricula of most, if not all, of the colleges and universities.

"The whole purpose of the book is to destroy the American faith of American youth.

"It ridicules the American concept of great and equal opportunity for useful and productive life in a free democracy.

"It instills a philosophy of despair and discouragement and disillusionment into American youth concerning the historic values and merits of the principles and ideals of the founders of the country."

THINK WEEKLY has received several letters similar to the one which follows, which letters certainly illustrate the Communist infiltration into the Army by men who were victims of their technique:

"My check for two dollars is enclosed for a year's subscription to your paper. Now that I am out of the Army, I can again be anti-Red and pro-American. While at Fort Dix, N. J., this summer, the post intelligence officer took my anti-Red, pro-American literature and also had my mail censored — among other things."

And here is damaging evidence taken from a report of the Committee on Military Affairs, House of Representatives, 79th Congress, 1st Session:

"Army men high in authority denied that any Communists held commissions in the Army. The Chicago

Tribune then gave the names of 10 Army officers 'about whose Communist connections there can be little question in the light of official records,' and several days later Earl Browder, in his new role as president of the Communist Political Association, issued two statements, to wit:

(a) There actually are 'some 13,000 Communists in the armed forces.'

(b) Of course there are Communists holding commissions in the United States Army.

"Browder amplified these statements with the declaration:

"It is time to bring Attorney General Biddle and the Department of Justice into line with the War Department and the State Department — as well as with the President, who has learned the value of rubbing elbows with Communists in friendly cooperation at least in other lands."

"Serious thought and some activity had long been given by the Communist parties to the advantages which would accrue to their cause through control of the armed forces of the non-Soviet nations.

"To quote from the Circular of General Instructions issued by a committee of the Soviet Government of Russia:

"The work of Bolshevik organizations in foreign countries is regulated as follows:

"4. In the military sphere: (a) Carry on intensive propaganda among the troops. Cause misunderstandings between officers and soldiers. Incite the soldiers to assassination of the higher officers. (b) Blow up arsenals, bridges, tracks, powder magazines. Prevent the delivery of supplies of raw materials to factories and mills.

"Thus the complete destruction of the army will be accomplished and the soldiers will adopt the program of the social democratic workers."

"Comrade O. Piantitsky, in the Twenty-one Conditions of Admission into the Communist International, lays down number —

"4. The duty of spreading communistic ideas includes the special obligation to carry on a vigorous and systematic propaganda in the army. Where this agitation is prohibited by exceptional laws it is carried on illegally. Renunciation of such activities would be the same as treason to revolutionary duty and would be incompatible with membership in the Third International. (Quoted in vol. 1, hearings on H. Res. 282, August 16, 1938, p. 295.)"

The Communist sheet IN FACT, in

its issue of January 13, 1947, states that an Army Colonel has sent them fifty dollars to start a fund for gift subscriptions to Congressmen, State and City legislators. We are willing to bet that this Colonel is a Russia-firster, that he is a Red placed in his position by powerful Red Internationalists, and that he knows more about the teaching of Lenin than he does about the teaching of George Washington.

Hon. John Lesinsky, head of a Congressional Investigating Committee, says that thousands of young Communists are continually being trained in Russia for entrance into the United States. They are schooled in the English language and prepared to enter our Army, Secret Service, and labor organizations. They are furnished with fake passports and enter mainly through Windsor, Canada.

Upon entry into the United States, they report to a Communist agent, who arranges with supporters in key positions in our government for these young Reds to fit into American life to await the day of revolution, when they will follow orders to disrupt our armed forces and industry.

Following are instructions of the Communist International to its members on how to bore from within:

(Quotations from "Thesis and Resolutions" adopted at the Third World Congress of the Communist International:

"The proletariat rejects in principle and combats with the utmost energy every kind of military institution of the bourgeois state, and of the bourgeois class in general. Nevertheless, it utilizes these institutions (army rifle clubs, citizens guard institutions, etc.) for the purpose of giving the workers military training for the revolutionary battles to come. Intensive agitation must therefore be directed not against the military training of the youth and workers, but against the militaristic regime, and the domination of the officers."

(Quotation from page 1024, *Imprecor*, official organ of the Third International, Sept. 1, 1928):

"A beginning has been made in practical work in the Navy. Here we note the fraternization of the young Communist League members with sailors in Philadelphia. We have already begun some work in the Army through sending in of some members.

"We no longer boycott the citizens military training camps. We send some selected members into it."

TAKING GERMANS FROM THEIR NATIVE LAND BASE INJUSTICE

(From "History's Most Terrifying Peace" by Austin J. App, Ph. D.)

Quoting a recent news report, the following territorial shifts are being prepared without the consent of the peoples involved:

"Poland is sure to get in the west more than she loses to Soviet Russia east of the Curzon line. With Eastern Prussia, Pomerania and eastern part of Brandenburg, Silesia falls into the Polish share of German Spoils" (New York Times, June 26, 1945).

And as to the effect of these huge territorial robberies on the peoples involved, the report continues:

"Such huge transfers of territory from Polish to Russian, and from German to Polish, sovereignty must bring in their train corresponding shifts of population, either voluntary or compulsory . . . Warsaw will have to enforce drastic measures, to overrule individual preferences and choices."

This is the decision, according to report, that "was arrived at by President Roosevelt, Prime Minister Churchill, and Premier Stalin" at Yalta. It was also at the tail end of the Yalta agreement that these Big Three affirmed the Atlantic Charter. In Point II this once crusadingly proclaimed Charter declares that there are to be " . . . no territorial changes that do not accord with the freely expressed wishes of the people concerned." This Charter was signed not only by Roosevelt, Churchill, and Stalin, but by over thirty other Allied governments. In the face of this clear, unmistakable, solemnly pledged principle, any attempt ruthlessly to rip ten million Germans from their native country and force their homelands under a radically alien sovereignty is so blasphemous a violation of God's justice that every American ought to cry out in anguish and so loud that the most gangster-minded statesmen would stop in their thug-like tracks.

said, that it is rather difficult to crowd sufficient information into the small space allotted to us to make a coherent, readable article.

But in future issues we will try to find space to give you more information on Communist infiltration into the Army and to keep you up-to-date on developments in this field.

We intend to show that someone at the top is either asleep or afraid to order a cleanup. In either case, it is the top men who bear the responsibility and they cannot sidestep. * And the American people must make them face that responsibility.

IGNORANCE GREATEST THREAT

shame, and are still heaping it upon America. Warn the American people — children — against impending disaster; they'll join the mob and lynch you; we need mention only a few, Lindbergh, Burt Wheeler, Rush Holt, Nye, Hiram Johnson, Hamilton Fish, Father Coughlin — these men stood up for America and were counted out.

Communism versus Christianity — who is to blame for it? Christianity itself! Let us be honest with ourselves; let us face facts and recognize them. Our supposedly Christian ministers, with few exceptions, have in all wars stood forward to be counted with the war-mongers, blessed the sword and whooped it up for more gore; like faithful dogs they follow the politicians and to the abyss they lead their flocks. As Jesus Christ said, "These people praise me with their lips, but their hearts are far away from me." The Communists are judging Christian doctrine by its unworthy advocates and professors. No Communist will dare to question the spirit and conduct of Christ men and women; they cannot. Let's look at the record; we have in the world, 1,044,730,000 people professing the various faiths. 682,400,000 are supposedly Christians; with 16,240,000, we have committed more heinous crimes against humanity than all the others rolled together. (This writer happens to be an ordained Baptist minister.) This is a damning indictment. World War I Christians murdered 37,494,180 Christians — strange!!

Frankly, I am led to believe many — far too many — of our editors know where our trouble lies, but they are too timid to put their finger on it. I believe with all my soul, mind, and heart, that the Communists and their dupes and tools in America are going to destroy our beloved country just as they are destroying Germany. I may be wrong; I hope I am.

But I must admit I am without hope. The New Deal, the National Socialist, the Democrat and the Republican deals are all frauds; with the Communist, they are anti-Christ when it comes to choosing whom they will worship — Mammon, of course. Therefore, let us ask:

Did the message that Christ brought to us die on the Cross with Him, to our everlasting sorrow and disgrace?

The Smear Terror

by JOHN T. FLYNN
Author and Economist

This pamphlet shows you Communist smear in action. It "tells the story of one of the strangest chapters in our history — the story of private gestapos formed to terrorize citizens who differ with the objectives of the operators. State secret police have harried Europe for years. Here private bureaus do the job. They maintain secret agents to spy in men's homes and offices; they maintain files on citizens after the fashion of European political police. They feed out carefully guarded smears through radio, press, bulletins to destroy the reputations of loyal Americans as traitors and fascists. The purpose is to frighten into silence all who dare question their plans at home and abroad. This story is told here for the first time."

Gentlemen:

Your paper first came to my attention when I attended a forum on Communism held in Orange by three New York lawyers who, I think, are doing a marvelous job. They are three partners in the firm of Fahy, Walsh and Evers.

Your paper is really wonderful. It is by far one of the most concrete methods for actually fighting Communism that I have seen. I have been rather active in our college circles in fighting it, now, for two years, but I seem only to be knocking my head against a stone wall. It is my opinion that college students today have a duty to fully equip themselves against Communism.

I am a senior this year, and still being in college there is not much I can do for you personally, as far as finances are concerned. However, every chance I get, I will do everything in my power to publicize your paper, and bring it to the attention of as many people as I can.

Enclosed please find my check for two hundred and sixteen dollars (\$216.00) for one year's subscription each to those whose names are on the enclosed stickers, numbering seventy-two.

With all good wishes for your continued success and greater circulation for your paper, I am

FACTS — THE TRUTH IN PLAIN WORDS FOR PLAIN PEOPLE

It is not easy to print the truth and give facts that are needed to expose the workings of Communism.

Hundreds of prominent people who enjoy the confidence of the majority of the public are active fellow travelers. Some are innocent dupes it is true, but they carry powerful influence

to draw people into the Red organizations and make way for Red Fascism which will later liquidate the dupes.

The mention of prominent names in connection with Communism is startling to those who have not devoted sufficient study to enable them to know facts. The mention of a name does not necessarily mean the person is a Communist. But it is necessary to smoke out these fellow travelers, innocent or not; otherwise it is foolish to try to stop Communism.

Communists have bragged that for every Communist Party member they have ten others doing their work. Some have learned their mistake and have withdrawn their support. But, unfortunately, many others continue under the label of liberals.
